| guidotack Add i | metadata files for mod | dels and instances | | | Lates | st commit 02 | b3966 on Feb 16, 2018 |
| 2DBinPacking | lı | nitial import of the Mi | niZinc benchmark suite. | | | | 6 years ago |
| QCP | L | Jpdated the search ar | nnotation to the current ve | ersion of MiniZinc. | | | 2 years ago |
| alpha | li | nitial import of the Mi | niZinc benchmark suite. | | | | 6 years ago |
| amaze | A | dd metadata files for | models and instances | | | | a year ago |
| areas | b | enchmarks/areas/are | eas.mzn: | | | | 5 years ago |
| bacp | A | dd metadata files for | models and instances | | | | a year ago |
| bibd | lı | nitial import of the Mi | niZinc benchmark suite. | | | | 6 years ago |
| black-hole | A | dd metadata files for | models and instances | | | | a year ago |
| bus_scheduling | j li | nitial import of the Mi | niZinc benchmark suite. | | | | 6 years ago |
| cargo | A | dd metadata files for | models and instances | | | | a year ago |
| arpet-cutting | A | dd metadata files for | models and instances | | | | a year ag |
| cars | lı | nitial import of the Mi | niZinc benchmark suite. | | | | 6 years ago |
| carseq | F | Replaced the depreca | ted global constraints seq | uence by sliding_s | um on | | 2 years ag |
| celar | Д | add metadata files for | models and instances | | | | a year ag |
| city-position | A | dd metadata files for | models and instances | | | | a year ag |
| community-det | tection A | dd metadata files for | models and instances | | | | a year ag |
| costas-array | A | dd metadata files for | models and instances | | | | a year ag |
| crosswords | A | dd metadata files for | models and instances | | | | a year ag |
| cryptanalysis | A | dd metadata files for | models and instances | | | | a year ag |
| curriculum | li | nitial import of the Mi | niZinc benchmark suite. | | | | 6 years ago |
| cutstock | li | nitial import of the Mi | niZinc benchmark suite. | | | | 6 years ago |
| cvrp | A | dd metadata files for | models and instances | | | | a year ag |
| cyclic-rcpsp | A | dd metadata files for | models and instances | | | | a year ag |
| debruijn_binary | , A | dd metadata files for | models and instances | | | | a year ag |
| depot-placeme | ent A | dd metadata files for | models and instances | | | | a year ag |
| diameterc-mst | A | dd metadata files for | models and instances | | | | a year ag |
| elitserien | Д | add metadata files for | models and instances | | | | a year ag |
| eq | li | nitial import of the Mi | niZinc benchmark suite. | | | | 6 years ag |
| evilshop | li | nitial import of the Mi | niZinc benchmark suite. | | | | 6 years ag |
| a fast-food | A | dd metadata files for | models and instances | | | | a year ag |
| fillomino | Д | add metadata files for | models and instances | | | | a year ag |
| filters | Δ | dd metadata files for | models and instances | | | | a year ago |

| flexible-jobshop | Add metadata files for models and instances | a year ag |
|------------------------|---|------------|
| freepizza freepizza | Add metadata files for models and instances | a year ag |
| g bac | Add metadata files for models and instances | a year ag |
| gfd-schedule | Add metadata files for models and instances | a year ag |
| ghoulomb | Add metadata files for models and instances | a year ag |
| golfers | Added new golfers model with more symmetry breaking (as described in | 4 years ag |
| golomb | Initial import of the MiniZinc benchmark suite. | 6 years ag |
| grid-colouring | Add metadata files for models and instances | a year ag |
| groupsplitter | Add metadata files for models and instances | a year ag |
| hrc | Add metadata files for models and instances | a year ag |
| is | Add metadata files for models and instances | a year ag |
| java-auto-gen | Add metadata files for models and instances | a year ag |
| java-routing | Add metadata files for models and instances | a year ag |
| jobshop | Replaced the deprecated global constraints sequence by sliding_sum on | 2 years ag |
| jobshop2 | Initial import of the MiniZinc benchmark suite. | 6 years ag |
| jp-encoding | Add metadata files for models and instances | a year ag |
| kakuro | Avoid name clashes with Zinc stdlib. | 5 years ag |
| knights | Initial import of the MiniZinc benchmark suite. | 6 years ag |
| angford | Initial import of the MiniZinc benchmark suite. | 6 years ag |
| argescheduling | Add metadata files for models and instances | a year ag |
| atin-squares | Updated the latin-squares-hybrid models to replace a deprecated | 2 years ag |
| league | Add metadata files for models and instances | a year ag |
| linear-to-program | Add metadata files for models and instances | a year ag |
| liner-sf-repositioning | Add metadata files for models and instances | a year ag |
| ma-path-finding | Add metadata files for models and instances | a year ag |
| magicseq | Initial import of the MiniZinc benchmark suite. | 6 years ag |
| mapping | Add metadata files for models and instances | a year ag |
| mario | Add metadata files for models and instances | a year ag |
| market_split | Initial import of the MiniZinc benchmark suite. | 6 years ag |
| maximum-dag | Add metadata files for models and instances | a year ag |
| mqueens | Add metadata files for models and instances | a year ag |
| mrcpsp | Add metadata files for models and instances | a year ag |
| mspsp | Add metadata files for models and instances | a year ag |
| multi-knapsack | Add metadata files for models and instances | a year ag |
| nfc | Add metadata files for models and instances | a year aç |
| nmseq | Add metadata files for models and instances | a year aç |
| nonogram | Add metadata files for models and instances | a year ag |
| nsp | Replaced deprecated global constraint sequence by sliding_sum | 2 years ag |
| on-call-rostering | Add metadata files for models and instances | a year ag |
| oocsp_racks | Add metadata files for models and instances | a year ag |

The MiniZinc Benchmark Suite

This is a collection of MiniZinc benchmark instances including instances from the 2008-2012 MiniZinc challenges.

All models and data files have been placed in the public domain and are available under the MIT license.

There is further information in the README and LICENSE files.
